PROJECTS

WanderLust(Airbnb Clone)

Link:-<https://wanderlust-9ek1.onrender.com>

Tool Used:- Mongo DB, Express, Node JS, Git and Github, Render Bootstrap, EJS, Flash, Passport, MVC framework

- Built with Node.js and Express, handling server-side operations and routing. Implemented MongoDB as the database to manage user data, property listing, and bookings.
- Designed a responsive user interface with Bootstrap and EJS, ensuring a seamless user experience by dynamically generating HTML pages.
- Integrated Passport for secure user login and registration, with Flash message providing user feedback.
- Used Git and Github for version control and collaboration, and deployed the application on Render for live testing and access.
- Followed the MVC framework to organize the application into Models, Views, and Controllers, promoting clean code and maintainability.
